### WHO MAY APPLY TO THIS ANNOUNCEMENT:

- Career or career conditional employees and permanent Title 38 employees of the Portland VA Medical Center eligible under the interchange Agreement. Included are permanent employees of the Willamette National Cemetery, Regional Office, Veterans Outreach Center and Veteran's Canteen.
- Any US Citizen

### MAJOR DUTIES:

The incumbent serves as a medical technologist with the responsibility of providing coordination between Pathology & Laboratory Medicine Service (PLMS) and the Research Service of Portland VA Medical Center (PVAMC). Coordination activities may include, but are not limited to, interaction with research coordinators to determine PLMS testing needs of research projects, creation of unique tests in VistA to support research sample collection, coordination with PLMS section supervisors/department heads regarding special pre-analytical, analytical, or post analytical test requirements, submission of bills of collection to Research Service for services provided by PLMS, and active participation with the research coordinator committee. The incumbent will develop general procedures to define processes between PLMS and Research Service.

### **THIS POSITION IS IN THE BARGAINING UNIT**

### QUALIFICATION REQUIREMENTS:

**Eligibility:** Department of Veterans Affairs Qualifications Standards apply (VA Handbook 5005, Part II, Appendix G24) and may be reviewed in the Human Resources Management Service Office.

#### Basic Requirements:

- **Citizenship.** Citizenship of the United States.
- **Education and/or Experience Combination.** An associate's degree in laboratory science or medical laboratory technology from an accredited institution or an equivalent program composed of at least 60 semester hours, from an accredited institution that, at a minimum, includes either: (a) 24 semester hours of medical laboratory technology courses; or (b) 24 semester hours of science courses that includes 6 semester hours of chemistry; 6 semester hours of biology; and 12 semester hours of chemistry, biology, or medical laboratory technology in any combination; and have laboratory training that includes completion of a NAACLS approved clinical laboratory training program with at least 3 months documented laboratory training in each specialty that the individual performs high complexity testing. In addition to the associate's degree, must possess at least 3 years of directly related, full time work experience.
- **Certification.** All candidates must currently possess or be eligible for and pass within one year the appropriate certification examination as a medical technologist or clinical laboratory scientist given by the American Society of Clinical Pathology Board of Registry (ASCP-BOR), the National Credentialing Agency (NCA), American Association of Clinical Chemists (AACC) or American Medical Technologists (AMT), or the American Association of Bioanalysts (AAB).

(1) Non-certified applicants who otherwise meet the eligibility requirements for certification may be given a temporary appointment as a graduate medical technologist under the authority of 38 U.S.C. § 7405 (a) (1) (D). Failure to obtain certification during that period is justification for termination of the temporary appointment. This may result in termination of employment.

(2) **Loss of Credential.** An employee in this occupation who fails to obtain licensure/certification/registration within the required time frame, or who fails to maintain the required licensure/certification/registration must be removed

(Continued on next page)

from the occupation, which may also result in termination of employment.

### **Requirements for GS-9**

- **Minimum Requirements.** Appointment or promotion to the GS-9 level requires a bachelor's degree in medical technology/clinical laboratory science or in a related science and completion of a medical technology clinical practice program. Both the education and the clinical practice program must have been approved by the National Accrediting Agency for Clinical Laboratory Sciences (NAACLS). The professional curriculum may have consisted of a post-baccalaureate certificate program or be integrated into a four-year program of study that culminated in a baccalaureate degree. In addition, candidates for GS-9 must possess either (a) or (b) below:
- **Experience.** To be creditable, the experience must have required the use of knowledge, skills, abilities, and other characteristics associated with active professional laboratory practice. (Active professional practice is paid/non-paid employment as a professional MT/CLS as defined by NAACLS.) Qualifying experience must also be at a level comparable to laboratory experience at the next lower level. This may have been evidenced by one or more of the following:
  1. The equivalent of 1 year of active professional practice in medical technology/clinical laboratory science performing moderate and/or high complexity testing as a certified or certificate-eligible MT/CLS; or
  2. The equivalent of 1 year of professional practice in one of the disciplines or specialized areas of medical technology/clinical laboratory science performing moderate and/or high complexity testing as a certified or certificate-eligible MT/CLS; or
  3. The equivalent of 1 year of active professional practice in a field directly related and applicable to the position to be filled; or
  4. Academic coursework leading to an advanced degree in medical technology or a directly related health care field

**OR**

- **Education.** Graduate education and graduate degrees may be substituted for experience, but only if from an accredited college or university in a field related to medical technology/clinical laboratory science, e.g., biochemistry, chemistry, microbiology, immunology, hematology, immunohematology, biological science, physiology, allied health education, health systems administration, infection control, and preventive medicine. Graduate education or a graduate degree in a field related to MT/CLS must be from a college or university, which was accredited at the time the candidate completed the program.

### **BASIS OF RATING: (Knowledge, Skills, Abilities (KSAs))**

***Applicants must demonstrate through their experience or education that they possess the following published KSAs (from VA Handbook 5005) for the grade at which they wish to apply (and grades below that grade if applicable):***

1. Comprehensive knowledge of professional medical technology/clinical laboratory science principles, practices, concepts, and theories providing for sound independent work.
2. Comprehensive knowledge of laboratory quality control and assurance procedures and principles of performance improvement providing for sound independent work.
3. Knowledge of laboratory equipment and ability to maintain, troubleshoot, and repair instrumentation.
4. Ability to use independent technical judgment to analyze and interpret laboratory results.
5. Ability to interpret and apply complex written instructions.
6. Ability to communicate, consult, and interact with other members of the healthcare team, external relations, customer service, and patient education.

### **CONDITIONS OF EMPLOYMENT:**

This is an Excepted Appointment. Excepted service positions have been excepted from the requirements of the competitive service by law, Executive Order, or by OPM regulation (5 USC 2103 and 5 CFR part 213). Public law No. 108-170 converts this occupational series from the competitive civil service to the Hybrid Title 38 employment system.

Applicants without prior federal service will be appointed at step one of the grade
