WHO MAY APPLY TO THIS ANNOUNCEMENT:

Employees covered under the provision of the inter-agency Career Transition Plan (ICTAP) and Career Transition Assistance Plan (CTAP) (displaced VA Employees) eligibles will be given priority consideration for vacancies within the **local commuting area** for which they are well qualified. Applicants requesting this consideration must attach appropriate proof of the ICTAP eligibility with their application. Well qualified is defined as an applicant, without any further training, can perform the major duties of the position which include management of a large and complex organization's construction projects, the integration of multiple engineering disciplines and Federal Acquisition Regulations.

MAJOR DUTIES:

The incumbent serves as a specialist in mechanical & electrical systems, construction, material handling and appurtenances as leader of a member of a team of engineers and technicians, responsible for the conceptual and detailed design, application, selection, installation, failure analysis, upgrading, repair, rehabilitation, operation and maintenance support, commissioning and testing a wide variety of equipment as utilized in a large medical center. Work is in two divisions. Projects are often of a non-classified nature, requiring innovative application of engineering principles and departure from previous approaches to similar projects. Prepares, directs and reviews studies and analysis of design alternatives and determines design features to be proposed in various planning level studies and in general and detailed design memoranda. Uses and directs the use of manual and computer aided design techniques to size and select equipment components to determine costs, to develop and analyze alternate solutions to operation and maintenance problems and to perform technical computations. Work includes managing multiple construction projects, the design of HVAC, medical gas piping, electrical distribution data systems, pumping machinery and providing technical expertise on equipment in the preparation of design memos, plans and specifications. Coordinates with managers and multi-disciplined designers to ensure efficient, effective and economical designs. Prepares or directs the formulation of preliminary and final designs, contract plans and specifications and cost estimates for equipment and construction projects. Prepares or directs the formulation of preliminary and final scope of work statements for A/E contracts. Reviews design and computations performed by A/E firms. Reviews contractor bid documents for technical adequacy and made recommendations to administering agency. Reviews contractor submitted shop drawings and A/E studies and designs for technical adequacy and recommends approval or corrective actions. Drafts appropriate replies to contractors, manufacturers and A/E's. Prepares requests for change orders and performs additional design during manufacturing, installation and construction phases of jobs. Serves a product team leader on numerous jobs, assisting the contracting officer in preparing schedules, budget estimates, coordinating the technical aspects of the job, assuring that all work is completed and preparing technical correspondence and management reports. Develops, conducts, evaluates and reports on field tests required by contract provisions and required to gather data on the operation of equipment and systems. Assists in the start-up and commissioning of new or rehabilitated equipment. Performs construction administration to multiple construction projects.
