

Residential Rehabilitation Treatment Programs (RRTP)

RRTP Programs offer a wide variety of services including medical, psychiatric, vocational, educational and social services. Staff are available 24/7 and work as a part of your treatment team to support your recovery.

RRTPs in VISN 20 serve Veterans needing support with Homelessness, Psychosocial skill building, PTSD, Substance Abuse, and Compensated Work / Transitional Therapy.

All program locations offer male and female beds.

All programs offer opioid medication assisted treatment (MAT).

Heroes

By Jared Jenkins

In war, there are lives risked and lives taken
Men and women giving their best to defend what
they love
They defend their country
Their honor
Their people

Some call them soldiers
Others call them heroes

Our veterans have risked their lives for us
They have lived through hell and fought with hon-
or
Many have killed
And regret doing so

For every life, there is a soul
For every soul, there is a life

For those who have died, we show great
appreciation and remembrance
For those who live, along with them live the
horrific memories of battle
Some, memories of defeat
Some, memories of victory

Our veterans were more than soldiers
They were, and still are HEROES

MHRRTP Mental Health Residential Rehabilitation Treatment Programs

VA Residential Rehabilitation Programs provide state-of-the-art, high-quality rehabilitation and treatment services in a supportive residential setting for Veterans in need.

Their purpose is to help Veterans identify and address agreed upon goals of rehabilitation, recovery, health maintenance, quality of life, and community integration through individualized assessment and planning activities.
