• Any US Citizen
• Applicants who previously applied for announcement T38H-08-448-JB Do Not need to re-apply.

MAJOR DUTIES:
The incumbent has a full time responsibility for providing pharmaceutical care to optimize patient response and resource utilization for professional staff. The incumbent evaluates provider orders/prescriptions. Monitors on an ongoing basis therapeutic outcomes, adverse effects and adherence and compliance. Analyzes laboratory data to guide therapeutic recommendations and treatment goal planning. Takes appropriate measures to ensure continuity of care for those patients who are followed at PVAMC, affiliated clinics and other VA facilities. Interviews patients to determine medication history for potential drug interactions, therapeutic duplications, efficacy of current medications regimens, compliance/adherence patterns and drug reactions.
• Acts to resolve identified problems.
• Reviews available medication profiles for appropriateness, contraindications to drug use, side effects, relevant laboratory data, evidence of drug use/misuse/abuse, compliance, patient education needs, therapeutic duplication, poly-pharmacy, allergies, adverse drug reactions, drug-drug interactions, drug-food interactions, and cost-minimization.
• Identifies drug-induced problems that may be affecting the patient and communicates these findings to the patient's primary provider/treatment team.
• Recommends therapeutic alternatives based upon the patient care assessment and desired outcome, drug safety and efficacy data, Pharmacy Benefits Management (PBM) initiatives, and other formulary management principles.
• Age/gender specific monitoring of therapy shall include review for poly-pharmacy, dose adjustments, and appropriateness of therapy.
• Participates in medication reconciliation and documents activities.
• Extends medications as needed for continuity of care (Scope of Practice/Approved Protocol required).
